

It's summertime and the urge to travel weighs heavy on many. Whether you're a local looking to explore faraway places or want to visit and experience all that this area has to offer, Cincinnati/Northern Kentucky International will likely play into your travel plans. KCVG and the controllers of the Indianapolis ARTCC will play host to VATUSA's Friday Night Ops on August 14th from 2300z until 0300z and we hope to see you there.

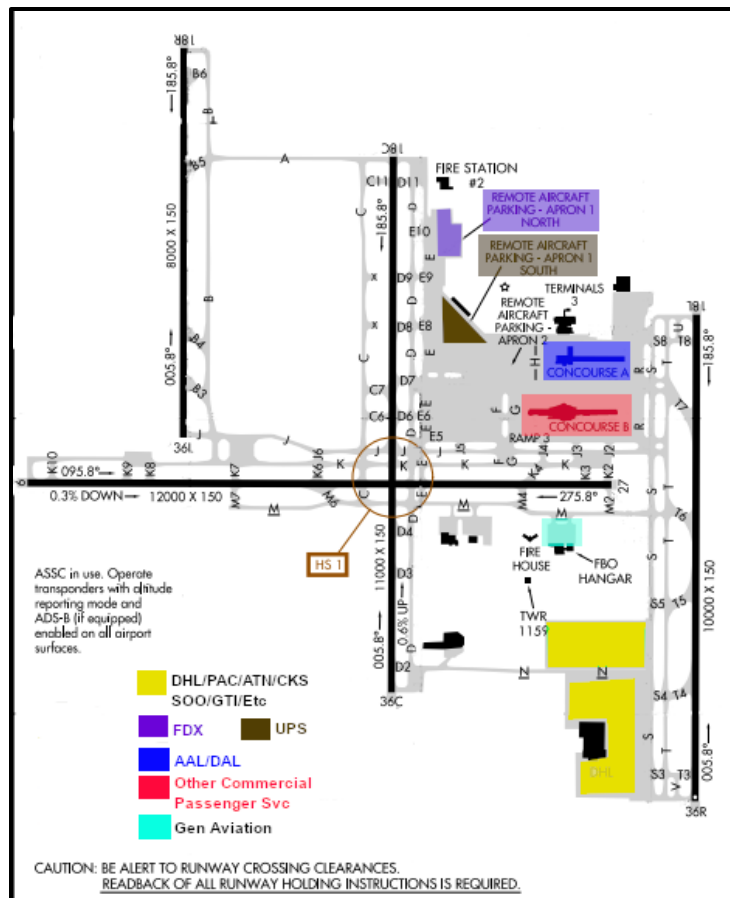

Pilot Briefing

The controllers of the Indianapolis ARTCC invite you to join them during Friday Night Ops at KCVG and the surrounding airports (KLUK, KHAO, KOXD, I67, I69, K62). We would like to provide you with some general information about operations in the area.

In this diagram we have tried to indicate the appropriate parking areas for the various airlines and cargo services. Arriving aircraft should expect taxi instructions to the area relative to their Callsign. Departing aircraft are asked to ensure their aircraft is in the appropriate location before spawning in.

We expect to be in South flow during the event. Everyone is reminded that if your scenery does not have all 3 N/S runways any reference to the Center runway applies to the 18R/36L in the default scenery. We'll be landing 18C & 18L and departing 18L & 27. Departures on the BNGLE4, HAGOL4, JBNCH5, LOVEY6 or WHWTR9 should expect Rwy 27. If you are filing the BLGRS4, CHCLL4, GIPLE6, KENLN5, RHOMM4, ROCKT1 or SILKS4 departure you should expect Rwy 18L for departure.

Departing aircraft will be advised to 'Monitor TWR on [freq]'. Tune the freq

and wait for the TWR controller to contact you when your departure is eminent.

Preferred Arrival Routes

The following list shows the preferred routes to file into Cincinnati area. For aircraft originating from further away than the defined departure airports should plan to join these preferred routes at an appropriate point.
